

G-RACK

DAS FLEXIBLE BAR-SYSTEM
FÜR GASTRONOMIE, MESSE UND PROMOTION

THE FLEXIBLE BAR-SYSTEM
FOR FOODSERVICE INDUSTRY, BARS, TRADE-FAIRS
AND PROMOTION

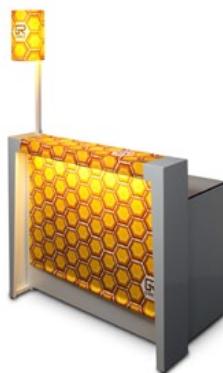

„Nichts ist beständiger als der Wandel.“

(Charles Darwin)

„Nothing is more constant than change.“

(Charles Darwin)

EIN SYSTEM – UNENDLICHE MÖGLICHKEITEN ONE SYSTEM, UNLIMITED OPTIONS

Voll anpassbar in Design und Funktionalität
fully adaptable in design and function

Geeignet für den stationären und den mobilen Einsatz
fit for stationary and mobile use

Transportfreundlich und ohne Werkzeug auf- und umbaubar.
easy to transport and assemble without any tools

“

Wer Rennen fahren will, braucht Rennautos!

Events veranstalten heißt für mich und mein Team, sich an unterschiedlichste Themen und Szenarien anzupassen. Mobile Module müssen nicht nur ultraflexibel sein, sondern letztlich so aussehen, als wenn an jener Stelle nie etwas anderes stand. G Rack ist für mich das Barmodul 4.0.

To race, you will certainly need a racing car!

In the business of event organizing my team and myself need to continually adapt to different themes and scenarios. Mobile modules must not only be ultra-flexible, but ultimately should cater for all of my events requirements by fulfilling both technical and esthetical necessities. G-RACK is the only modular bar system that gets the job done.

Sven Kluge, Geschäftsführer Adeo Concept GmbH Eventagentur, Potsdam
www.adeoconcept.com/www.bar-promotion.de

- Flexibilität in Design und Funktion
- Eignung als mobiles oder stationäres Element
- Werkzeugloser Auf- und Umbau
- Zerlegbar und stapelbar
- Geringes Gewicht und hohe Stabilität
- Indoor- und outdoor tauglich
- Eignung für Solitärstellung oder Kombination
- Umfangreiches Zubehör
- Maße abgestimmt auf GN-Normteile und 50x50 Gläserkörbe

BLACK PEPPER & BASIL

— EST. 2009 —

- Flexibility in design and functionality
- Suitable for both mobile and stationary applications
- Tool free assembly and remodeling
- Can be easily disassembled and stacked
- Low weight – high stability
- Indoor and outdoor usage
- Can be built as a stand-alone unit or can be integrated into any design
- Comes with a wide range of accessories
- Designed to be used with all GN-standard parts as well as 50x50 Glasracks

Das G-RACK System

G-RACK ist ein flexibles Bar- und Tresensystem für den mobilen oder stationären Einsatz und besteht aus robusten Aluminium-Gestellen. G-RACK ist in Funktion und Design jederzeit änderbar – völlig ohne Werkzeug. Das G-RACK Barsystem ist für den Innen-

und Außeneinsatz bestens geeignet. Der modulare Systemaufbau erlaubt durch den Wechsel einzelner Komponenten eine ständige Anpassung an veränderte Nutzungsbedingungen. Heute Cocktailbar, morgen Messetheke – durch die Verfügbarkeit einer Vielzahl von Ausstattungselementen

wie Schubkästen oder Arbeitsplatten ist Ihr G-RACK immer genau das, was Sie gerade brauchen. Neben der funktionalen Ausstattung lässt sich auch das Erscheinungsbild Ihres G-RACK nahezu grenzenlos verändern. Mit wenigen Handgriffen gestalten Sie Ihr G-RACK immer wieder neu.

The G-Rack System

G-RACK is a flexible bar system that is designed for both mobile and stationary use. Its unique design is based around innovative lightweight modular aluminum frame structures that allow it to easily adapt to different service requirements at any time and can be easily

readjusted without the use of any tools. The G-RACK system can be easily set up as a cocktail bar for an event, and then can easily be transformed into a trade fair counter with the help of a variety of available accessories such as drawers, counter tops even outer shell design elements giving this unique system

limitless options for redesigning them over and over again. The G-RACK bar systems are built from weather proof materials making them suitable for both indoor and outdoor usage. Our extensive range of equipment and accessories meets all requirements

Das G-RACK-Grundmodul

Die Basis aller G-RACK-Systeme bilden die G-RACK Grundmodule, die sich in ihren Abmessungen an den gängigen Maßen der Gastronomie orientieren. Die Grundmodule lassen sich in beliebiger Kombination als Unterbau für jede Art von Tresen nutzen.

Spezielle G-RACK-Systembohrungen und -fräslöcher bieten nicht nur die Möglichkeit die Grundelemente flexibel zu koppeln sondern auch unterschiedlichste Funktionsmodule und Verkleidungen anzubringen – Und das ganz ohne Werkzeug. Jede Komponente aus dem umfangreichen Ausstattungs-

und Zubehörprogramm wie Einschübe, Frontverkleidungen, Thekenplatten oder GN-Behälter lässt sich einfach integrieren – selbst komplexe Konstruktionen wie z.B. ein Rückwand- oder Regalsystem sind in wenigen Handgriffen aufgebaut. Profitieren Sie von fast unbegrenzten Möglichkeiten.

The G-RACK base module

The cores of all the G-Rack systems are the G-RACK basic modules deriving their dimensions from gastronomical standards. The basic modules can be used in any combination as basis for any kind of service counter. Special G-RACK system

bores and notches offer the possibilities to not only connect the basic elements in any conceivable manner but also to mount different function modules and panels completely without the use of tools. Components of the extensive range of equipment and accessories such as

drawers, front panels, counter tops and GN-containers can be easily integrated into these systems. These systems can also provide components that can be assembled into back drop walls or shelf systems in a few easy steps.

STABIL ODER FLEXIBEL? BEIDES NATÜRLICH! STURDY OR FLEXIBLE? BOTH OF COURSE!

G-RAXX und G-FLEXX sind voll miteinander kombinierbar

G-RAXX and G-FLEXX units are compatible

G-RAXX

— EST. 2009 —
G-FLEXX – einfacher Transport,
dank Faltsystem

G-FLEXX – easy to transport
thanks to its foldable design

Ein starkes Team

Das G-RACK Grundmodul wird in zwei Varianten angeboten: G-RAXX und G-FLEXX. Für alle die nicht unbedingt auf ein minimales Transportvolumen achten müssen, ist unser G-RAXX-Grundmodul die ideale Lösung. Dieses

Grundmodul eignet sich hervorragend für stationäre Tresen, bleibt aber durch Rollen stets mobil. Wer hingegen nur über eingeschränkte Transportkapazitäten verfügt, aber dennoch nicht auf Stabilität und Beständigkeit verzichten möchte, für den ist G-FLEXX – unser

faltbares Modul – die richtige Wahl. Ausstattungs- und Zubehörteile sind für beide Grundmodule geeignet und sichern absolute Flexibilität in Funktion und Design.

A strong team

The G-RACK basic modules are available in two versions: The G-RAXX and G-FLEXX, both systems are identical in functionality, and are compatible

with the same extensive range of all available equipment and accessories. G-FLEXX systems have been designed with mobility in mind, they are easier to move around from one location to

another as they can be folded into compact units and can be easily transported. G-RACK systems are ideal for stationary counters but remains mobile thanks to mountable roller wheels.

Sofort einsatzbereit – Das Grundmodul G-RAXX

G-RAXX Grundmodule werden als fertig montierte Rahmenkonstruktionen geliefert. Ein Modul hat dabei eine gängige Breite von 60 cm und lässt sich so problemlos auch in vorhandene Tresenkonstruktionen integrieren. Hinstellen, ausstatten, arbeiten.

- Fertig montierte Rahmenkonstruktion
- Auch als Einzelement (Breite 60cm) einsatzbereit
- Übereinander montierbar (z. B. als Regal)
- Voll integrierbar in herkömmliche Tresenkonstruktionen
- Auch mit Rollen ausstattbar

G-RAXX

Ready to use – The G-RAXX basic module

The G-RAXX basic modules are supplied as completely assembled frame structures. The modules have a common width of 60 cm and can thus be easily integrated into existing bar counters. All you have to do is equip it and work with it.

- Fully assembled aluminium frame
- Plug and play bar units
- Easily stored with stackable characteristics
- Can be integrated into any existing bar counter
- Available with mountable rollers

BLACK PEPPER & BASIL

- The complete bar in one piece
- Easy to assemble folding system
- Easy to transport (in almost any car trunk)

— EST. 2000

- Die komplette Bar im Kleinformat
- Einfacher Aufbau durch Faltsystem
- Einfacher Transport (PKW-Kofferraum reicht)

G-FLEXX

Faltbar und hochmobil – Das Grundmodul G-FLEXX

G-FLEXX Grundmodule sind faltbar, klein, leicht und handlich: Ein G-FLEXX Grundmodul passt mit seinen Abmessungen bequem in beinahe jeden Kofferraum. Aufgebaut bildet bereits ein Grundmodul die Basis für eine komplette Bar. Ausklappen, ausstatten, arbeiten.

Foldable and highly mobile – The G-FLEXX basic module

G-FLEXX basic modules are foldable, small, lightweight and handy: A G-FLEXX basic module comfortably fits into almost any car trunk. Built up, one base module can be used as the basis for a complete bar. Unfold, equip and work.

DIE PERFEKTE KOMBINATION A PERFECT MATCH

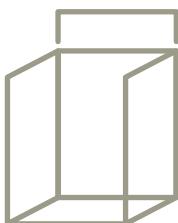

Bleiben Sie flexibel

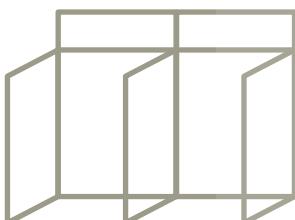

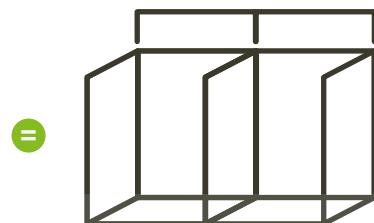

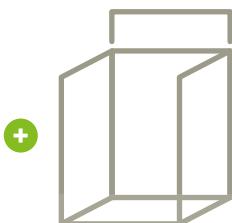

Alle G-RAXX- und G-FLEXX-Module lassen sich miteinander kombinieren. Mit nur wenigen Handgriffen verbinden Sie die unterschiedlichen Grundmodule zu einem stabilen System. Ändern sich Ihre Anforderungen, ändern Sie Ihr System. Tauschen Sie einzelne Grundmodule, ändern Sie die Kombination oder lösen Sie einzelne Elemente zur Einzelverwendung heraus. Alle Designfronten und Zubehörteile verwenden Sie einfach weiter.

Stay flexible

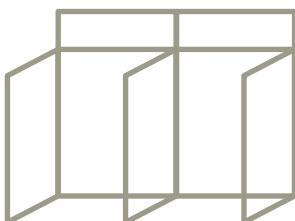

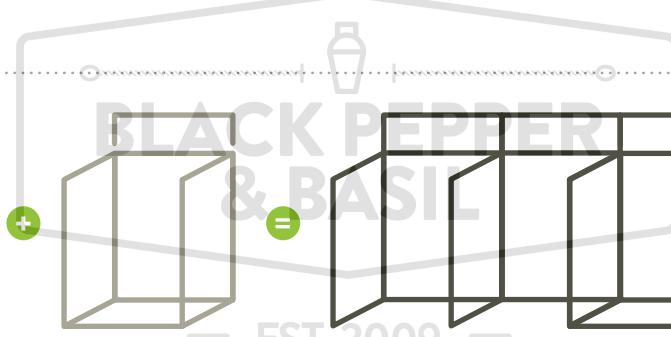

All G-RAXX and G-FLEXX modules can be combined with each other. With just a few steps, different basic modules can be connected to form a stable system. Whenever your service needs change you can easily rearrange the system to meet those needs in minutes. This can be done by replacing individual basic modules and changing the set up combination; you can even remove individual elements from your system to be used separately as all of our extensive range of accessories and design front parts can be easily fitted into your new design.

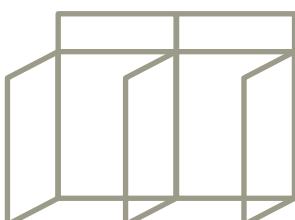

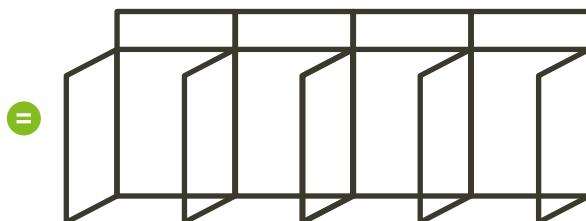

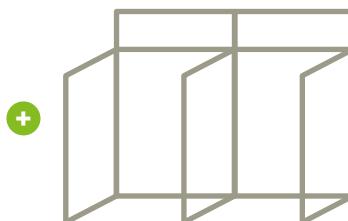

G-RAXX + G-RAXX

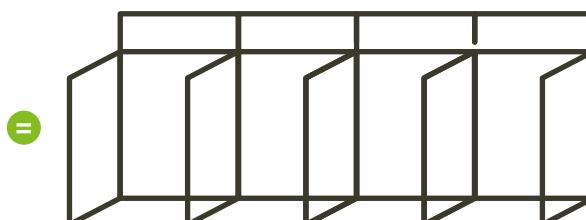

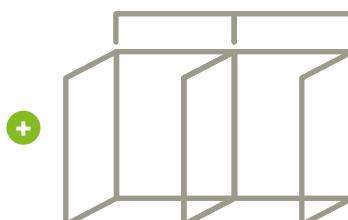

G-FLEXX + G-RAXX

G-FLEXX + G-FLEXX

G-FLEXX + 2 G-RAXX

Ausstattungsvielfalt in Funktion und Design

G-RACK liefert das System, Sie bauen Ihre Bar. Mit den Artikeln aus dem umfangreichen Ausstattungs- und Zubehörsortiment gestalten Sie Ihre Bar immer genau so, wie Sie es für ein effizientes Arbeiten benötigen. Durch eine Vielzahl von Arbeitsplatten, Thekenplatten und modularen Erweiterun-

gen wie Flaschentreppen, Speedracks, Gläserkörben und Wasserstationen lässt sich ein Grundmodul innerhalb kürzester Zeit völlig neu konfigurieren. Genauso vielfältig wie in seiner Funktion, ist Ihr G-RACK auch in den Designmöglichkeiten. In wenigen Handgriffen vom Tastingcounter zum Messestresen, vom klassischen Bierstresen zur stylishen Cocktailbar – mit Hilfe von Designfron-

ten und individuell gefertigten Elementen gelingt der Wechsel mühelos und ohne Werkzeug. Informieren Sie sich über unser Ausstattungssortiment auch auf unserer Website unter www.g-rack.de und lassen Sie sich inspirieren. Über das bestehende Sortiment hinaus lassen sich nahezu alle Sonderwünsche erfüllen. Sprechen Sie uns an.

Diversity in function and design

G-RACK provides the systems with which you can design and build your bar with. Our extensive range of accessories, equipment and items can help you design and customize the functionality of your unit to best fit your operation by choosing from a wide range of various worktops, bar tops, modular extensions, such as bottle displays, speed racks

glass-racks or even water stations, these units can be easily configured to meet your service requirements. As diverse as they are in functionality, your G-RACK system has endless design possibilities, in just a few steps your G-RACK changes from a tasting counter to a trade fair counter, from classic beer-bar to a stylish cocktail bar. With the help of design fronts and custom-made elements

the change is easily done – effortless and completely without tools. Find out about our wide range of equipment on our website at www.g-rack.de, check it out and be inspired. If you have any additional requirements our team of bar design consultants and skilled engineers have the ingenuity to make it happen, all you have to do is just talk to us and let us know.

Die mobilen G-RACK Bars für Brown Forman

Gläserkörbe, elegant verdeckt durch Schiebetüren
Hidden glass racks provide both convenience and functionality

Abb. 4

Zwei weitere Ausführungsvarianten – erstellt aus dem selben Grundbestand an G-FLEXX- und Ausstattungselementen.
Two more options – built of the same basic-stock of G-FLEXX-elements and equipment.

Mobile Bars für Brown Forman

Ein Grundbestand von G-FLEXX Elementen und Ausstattungen ermöglicht die Bereitsstellung kleiner und großer Bars für Promotion-, Event- und Messe-einsätze, abgestimmt auf den jeweils gewünschten Auftritt der einzelnen

Marken oder des Unternehmens.

Anstatt eine Vielzahl unterschiedlicher Tresensysteme bereit zu halten, werden immer die gleichen Basisgestelle verwendet. Dies verringert den Aufwand bei Schulung und Einweisung des Personals und vereinfacht die logistischen

Abläufe. Bei kurzfristigem erhöhten Bedarf müssen keine kompletten Systeme nachbeschafft oder verschickt werden, sondern nur die spezifischen Branding-, Ausstattungs- oder Verkleidungselemente.

Mobile bars for Brown Forman

With the available stock of basic G-FLEXX elements and equipment you can easily assemble small and large bars for promotional purposes at events and trade fairs. Our unique system has caught the attention of several large brands as they can now change the

functionality and design of their promotional units without investing heavily in different bar units, all they have to do is re-configure their existing units with additional equipment and accessories to give it the look and functionality they need for a particular event, trade fair or even for product training and promotio-

nal activities. Our units are assets that can be built on year after year, this help in cost reduction and simplifies logistics. The same unit can be redesigned with a new look and can change in size and functionality just by adding new components to it, making it extremely cost effective

► Mobile Cocktailbar

In einer Kombination von G-FLEXX und G-RAXX Elementen können unterschiedliche große einzelne Bars oder Barstrecken zusammengestellt werden. Mit einem auf die Systemmaße abgestimmten Rückwandgestell lassen sich Rückbuffets oder Präsentationsflächen herstellen, die G-FLEXX oder G-RAXX Elemente integrieren.

► Outdoor Champagnerbar

Ein im Design auf die Architektur des Standortes abgestimmtes Frontelement bietet eine prominente Präsentationsfläche für die Marke. Hier ein Beispiel von G-RACK als Outdoor Champagner Bar. Rückseitig integrierte G-RAXX-Elemente tragen dieses Frontelement und bieten den benötigten Stauraum und die benötigten Arbeitsflächen.

Mobile Cocktail Bar

With the combination of G-RAXX and G FLEXX modules, bars can be assembled in different dimensions and sizes. With a back wall frame matched to the system's dimensions, back buffets or presentation areas can be constructed using the G-FLEXX or G-RAXX elements.

Outdoor Champagne Bar

With customized designed front elements that matched the style of the location, provides brands with a distinctive demonstration platform. Backside integrated G-RAXX elements carry this front element and provide the required storage and working space.

▼ Alles am richtigen Platz

Ein kompletter Arbeitsplatz – realisiert mit G-RAXX-Modulen für den Unterbau und Arbeits- und Thekenplatte aus dem umfangreichen G-RACK-Programm. Alles was man für ein effizientes Arbeiten hinter der Theke benötigt: Spül- und Kühlmöglichkeit, Normausschnitte für GN-Behälter und Einschübe für Glas- und Flaschenkörbe.

The G-RACK system in use

A complete workspace – equipped with G-RAXX modules as a base and parts from the extensive range of G-RACK accessories and equipment. Everything you need for an efficient workflow behind the counter: rinsing and cooling capabilities, standard cutouts for GN containers and the use of glass racks to store spirits.

Vollständig anpassbare Funktionsausstattung

The range of equipment nearly meets any requirement.

Ständige Weiterentwicklung

G-RACK ist ein junges und innovatives Produkt. Basierend auf unseren Erfahrungen in den Bereichen Gastronomie, Messe und Promotion haben wir Systemkomponenten und Zubehörteile entwickelt,

mit denen beinahe alle Bedürfnisse erfüllt werden können. Unser Ziel ist die einfache und flexible Bereitstellung effizienter Arbeitsplätze. Ihnen gefällt unser System, Sie benötigen jedoch spezielle Ausstattungs- oder Zubehörteile, die

wir derzeit nicht im Standardsortiment führen? Sprechen Sie uns an. Wir verfügen über die technischen Möglichkeiten, beinahe jeden Wunsch umzusetzen.

Continuous development

G-RACK is still a young and state-of-the-art product that is constantly being developed by a team of expertise that has over 20 years of experience in the profession bar, catering and exhibition field. The basic modules and the compo-

nents of this system have been developed in a very smart way and can realize all of your service and operational requirements. Our aim is to provide you with a system that can be easily assembled without the use of tools and configured for your different service necessities

making it one of the best workstation system available on the market. If you have any additional requirements, our team of bar design consultants and skilled engineers have the ingenuity to make it happen, all you have to do is just talk to us and lets us know.

Das G-RACK Online-Anfrageportal

Besuchen Sie uns auch im Internet unter www.g-rack.de.
In unserem umfangreichen Anfrageportal können Sie sich Ihr individuelles G-RACK bequem zusammenstellen.

Promotion & Event

G-Rack ist aus der Erfahrung von 20 Jahren Produktion von mobilen Bars für Getränkeindustrie, Caterer und Bartendern entstanden. Wir haben dabei mit den Menschen gesprochen, die die Budgets verantworten, sich um den Markenauftritt kümmern, für die Logistik zuständig sind, an der Bar arbeiten und die Bars aufbauen. Je nachdem mit wem man spricht, sind unterschiedliche Punkte im Fokus.

Zusammengefasst gilt: Die Arbeit mit mobilen Bars ist dann erfolgreich, wenn eine gute Balance zwischen Anschaffungspreis, Betriebskosten, Funktionalität und Design besteht.

Eine Bar, die nur gut aussieht, wird für den Profi hinter der Bar nicht funktionieren, eine Bar, die nur funktional ist, wird den Markenauftritt nicht unterstützen, eine Bar, die hohe Logistikkosten mit sich bringt, verbrennt Budgets und eine Bar, die zu teuer im Anschaffungspreis ist, bleibt Wunschenken.

Jede G-Rack Bar lässt sich durch eine Person in kurzer Zeit aufbauen, mit kleinen Fahrzeugen transportieren und platzsparend lagern.

Die Möglichkeit das Design komplett zu verändern lässt es zu mit den gleichen Modulen verschiedene Marken zu bedienen. G-Rack Bars sind grundsätzlich komplett in B1-Materialien erhältlich und für Indoor- und Outdoornutzung geeignet.

Der modulare Aufbau ermöglicht es dem Nutzer klein und mit reduzierter Ausstattung zu starten, aber jederzeit hochrüsten zu können. Man kann jederzeit alles verändern, werkzeuglos und mit wenigen Handgriffen.

G-Rack Module sind Module für den Profi und für lange Nutzungsdauer bei hoher Beanspruchung konzipiert.

Basis für Promotion und Eventmodule sind die faltbaren G-Flexx Basismodule oder das feste G-Raxx Modul. Das G-Raxx Modul ist ohne den eingehängten Frontrahmen auch als Tischmodul einsetzbar. Alle Module sind miteinander kombinierbar. Die faltbaren G-Flexx Module eignen sich auch für den Transport in sehr kleinen Fahrzeugen.

A variety of coverings and displays will change design and function of the units.

COCKTAIL TRAINING

G-Rack bars can be changed in size or functionality - toolfree and with just a few steps. This makes G-Rack the perfect bar for cocktail trainings and workshops. You can set up one larger bar or several small units. By using the G-Raxx baseframe without the frontframe and bartop G-Raxx can be used as a table module.

image 01

image 02

image 03

Cocktailtrainings often take place at fixed barcounters. It is not the best solution if the counter is not organized well enough for that or if the space behind the counter is to narrow for larger groups or just not presentable enough. If the main counter is used, workshops can only be organized outside business hours. With G-Rack you can set up your bar whenever and wherever you like - inside or outside your location.

You can also use the G-Raxx baseframe just as a table module without frontpanels. By using extender trays or speedracks you can enlarge your workspace up to 100%.

BLACK PEPPER

— EST. 2009 —

image 04

image 05

image 06

If G-Raxx is used as a table module the trainer stays more visible to the students and the students can work at the same time in teams or on their own. On the G-Raxx baseframe the extender tray can be used on 3 sides while the speedrack can be used on 4 sides.

The workspace can be organized and is visible from all directions. If several units are used every individual participant can work on his own workstation.

If you don't have the space to set up whole G-Raxx baseframes or if you need a maximum in mobility you can just leave out the G-Raxx baseframe. Worktop and base can be connected to a tabletop module. Used on a regular table you will have a comfortable work height.

— EST. 2009 —

This module can be used on tables you perhaps already have at the location. Worktops and bases can be stored or carried in special bags. On the tabletop module the extender tray and the speedrack can be used on 2 sides.

G-Rack Bars können in 600 mm Schritten verbreitert werden, indem ein zusätzliches Modul hinzugefügt wird.

G-Raxx Module und G-Flexx Module können problemlos verbunden werden.

G-Rack bars can be enlarged in steps of 600 mm by adding just another baseframe.

G-Flexx and G-Raxx baseframes can be easily combined.

Bild 1 / image 1: 1x G-Flexx = 1200 mm

Bild 2 / image 2: 1x G-Flexx + 1x G-Raxx = 1800 mm

Eisbox, Artikel-Nr. xx-zb14

Die thermisch isolierte Eisbox fasst bis zu 35 l Eis.

Ice Box, Item no. xx-zb14

The isolated ice box holds up to 35 l ice.

Bild 7: Eisbox, Artikel-Nr. xx-zb14

Image 7: Ice Box, Item no. xx-zb14

Eisbox-Schiebedeckelset, Artikel-Nr. xx-zb14.1

Die Box kann mit einem Schiebedeckelset ausgestattet werden, mit einem Tropfblech und einer Unterteilung für verschiedene Eis Sorten. Die Eisbox kann in einem Auszug verwendet werden oder auf einem Fachboden. Lässt man die Arbeitsplatte darüber weg, kann die Eisbox auf Ebene der Arbeitsfläche platziert werden und ist von oben einfach zugängig.

Ebenso können die Arbeitsplatten 2-4 oder 2-5 (mit Ausschnitt vorne) eingesetzt werden, dadurch entsteht im hinteren Bereich noch eine Fläche für Flaschen oder Gläser.

Ice Box Sliding Top Set, Item no. xx-zb14.1

The box can be equipped with a sliding top for easy access, a drip plate and a divider for different types of ice. The ice box can be used on a rack slide drawer or on a shelf..

Instead of a work top you can just place the ice box on the same level as the work top gives easy access from the top.

You can also use the work top s2-4 or 2-5 (cut out in the front) to have some space for placing bottles or glasses.

Bild 8: Eisbox-Schiebedeckelset, Artikel-Nr. xx-zb14.1

Tablare

Verschiedene Tablare können am G-Rack befestigt werden, um zusätzliche Ebenen zu schaffen. Die Zubereitung oder Anrichtung des Drinks kann ergonomisch günstig näher am Körper erfolgen und wird gut im Blickbereich des Gastes inszeniert.

Tablets/Trays

*A variation of trays/tablets can be used for building additional worklevels.
The preparation of the drink can be finished within easy reach and in a good ergonomic working position,
with good visibility for the guests.*

Bartop Tray, Artikel-Nr. xx-zb26

aus Edelstahl, mit 1 Barmatte, 300 x 150 mm, zum Anklemmen am G-Rack Thekenboard. Das Tray kann außerdem an beliebigen anderen Thekenplatten befestigt werden, um dieses zur Bedienerseite hin zu vergrößern. Das Bartop Tray schafft eine zusätzliche Arbeitsebene im Sichtbereich des Gastes und in einer ergonomisch günstiger Position.

Bar top tray, Item no. xx-zb26

stainless steel, with 1 bar mat 300 x 150 mm. The tray is mounted to a G-Rack bar top by a clamp but also can be used on regular bartops of different dimensions to enlarge the bar top. The tray is providing an additional workshelf in good sight of the customer and in an advantageous ergonomic position.

Bild 21: Bartop Tray (Artikel-Nr. xx-zb26)
Image 21: Bar top tray (Item no. xx-zb26)

Einhängetablar, groß, Artikel-Nr. xx-zb25

aus Edelstahl, mit 2 Barmatten von je 300 x 150 mm, zum Einhängen am Grundgestell G-Flexx, an einem Frontrahmen G-Raxx oder an der Equipmentschiene. Es schafft eine zusätzliche Ebene zwischen Arbeitsfläche und Thekenboard.

Hook in tray, large, Item no. xx-zb25

stainless steel, with 2 bar mats 300 x 150 mm. The tray is mounted to the frontframe of G-Flexx or G-Raxx or is mounted to the equipment rail. The tray is providing an additional storage shelf between bar top and work top.

Bild 22: Einhängetablar, groß (Artikel-Nr. xx-zb25)
Image 22: Hook in tray, large (Item no. xx-zb25)

Einhängetablar, klein, Artikel-Nr. xx-zb24

aus Edelstahl, mit 1 Barmatte, 300 x 150 mm, zum Einhängen am Köcherboard (Art.-Nr. xx-zb4), um eine zusätzliche Abstellebene zu schaffen.

Hook in tray, small, Item no. xx-zb24

stainless steel, with 1 bar mat 300 x 150 mm. The tray is mounted to the quiverboard (Item no. xx-zb24) providing a additional storage shelf between bar top and work top.

Bild 23: Einhängetablar, klein (Artikel-Nr. xx-zb24)
Image 23: Hook in tray, small (Item no. xx-zb24)

Erweiterungstablar, Artikel-Nr. xx-zb27-

Erweiterungstablar mit 2 Barmatten zum Einhängen in das G-Raxx Grundgestell um zusätzliche Abstellflächen zu schaffen.

Extender Tray, Item no. xx-zb27-

The tray with 2 bar mats is mounted to the G-Raxx base frame to create additional storage areas.

Arbeitsplatten

Verschiedene Arbeitsplatten mit oder ohne Ausschnitt lassen eine individuelle Ausstattung der Bar zu.
Die Arbeitsplatte 2-1 ist geschlossen ohne Ausschnitte, 600 x 600 mm.
Die Arbeitsplatte 2-2 hat zwei Ausschnitte 1/2 GN und einen Ausschnitt 2/4 GN. Die Arbeitsplatte kann mit GN-Spüle, Wasserhahn, GN-Behältern, GN-Einlegeblechen, GN-Druckspüle oder GN-Tropfblechen und Schneidbrettern ausgestattet werden.

Die Arbeitsplatte 2-3 ist eine Arbeitsplatte mit Ausschnitt nach Kundenwunsch.

Die Arbeitsplatte 2-4 ist im vorderen Bereich offen. Unter dieser Öffnung kann ein Fachboden als abgesenkte Stellfläche für Flaschen, eine Eisbox oder ein Gläserkorb usw. eingesetzt werden.

Weitere Standard Arbeitsplatten sind Arbeitsplatten in 1200 oder 1800 mm Breite, ohne oder mit verschiedenen Ausschnitten.

Wird die Arbeitsplatte weggelassen, so kann eine Eisbox, ein Gläserkorb oder eine Flaschentreppen auf Schienen oder auf Fachböden im Basisgestell platziert werden.
(Bild 4 & 5)

Worktops

The **work top 2-1** is without any cut outs, 600 x 600 mm.

The **work top 2-2** has two cut outs 1/2 GN and one cut out 2/4 GN. The worktop can be equipped with GN-sink, GN-containers, GN-inlay plates, GN cutting boards.....

The **work top 2-3** is equipped with a customized cut out.

The **work top 2-4** has a cut out at the front, underneath this cut out a shelf can be placed for bottles, icebox or glassracks.

Additional standard worktops are available in 600 x 1200 and 600 x 1800 mm with a variety of cut outs.

If the worktop is not mounted, an icebox, a glassrack or a bottle display can be placed on rails or a shelf in the baseframe.

Schneidebretter, Art.-Nr. xx-zb11 & xx-zb11.1

Schneidebretter sind mit oder ohne Loch erhältlich.
Die Schneidebretter decken die Öffnungen in der Arbeitsplatte und 1/2 GN Container ab.
Bei der Nutzung des Schneidebrettes mit Loch kann ein Behälter unter dem Schneidebrett als Abfallbehälter genutzt werden.

Bild 30a & 30b: Schneidebretter (Art.-Nr. xx-zb11 & xx-zb11.1)
Image 30a & 30b: Cuttingboards (Item no. xx-zb11 & xx-zb11.1)

Cuttingboards, Item no. xx-zb11 & xx-zb11.1

Cuttingboards are available with and without a hole.
The cuttingboards are covering the cut outs in the worktops or but also a 1/2 GN Container.
If the cuttingboards with a hole is used, the container underneath the cuttingboards functions as a waste container.

Utilities / Accessories

Bottle Display 1

Two Stairs bottle display in 1 mm stainless steel,
to be used with our shelf rails or universal rails.
Color: Silver; W x D x H = 535 x 269 x 95 mm.

Item no. xx-zb1 EUR/unit **125,-**

Quiver Board

The board is placed in the G-Flexx adapter or in the front frame adapters.
Quivers are sold separate.
Ø 91 mm.
Color: Silver; W x D x H = 533 x 115 x 93 mm.

Item no. xx-zb4 EUR/unit **44,-**

Quiver

Round quiver made of stainless steel.
The quiver can hold different supplies. Ø100 mm.
Color: Silver; DB x DT x H = 120 x 85 x 135 mm

Item no. xx-zb4.1 EUR/unit **9.10**

Quiver Splitter

Plug trays as a subdivision for the quiver cup.
Material: Stainless steel.

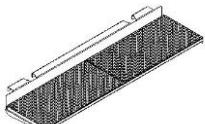

Item no. xx-zb4.2 EUR/pair **12,-**

hook in tray, small

stainless steel, with 1 bar mat 300x150.
The tray is mounted to the quiverboard providing a additional storage shelf
between Bar top and work top.

Item no. xx-zb24 EUR/unit **45,-**

hook in tray, large

stainless steel, with 2 bar mats 300x150.
The tray is mounted to the front frame of G-Flexx or G-Raxx or is mounted to
the equipment rail.
The tray is providing a additional storage shelf between Bar top and work top.

Item no. xx-zb25 EUR/unit **62,-**

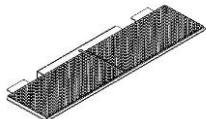

Bar Top Tray

stainless steel, with 1 bar mat 300x150.
The tray is mounted to a G-Rack bar top by a clamp but also can be used on regular bar tops
of different dimensions to enlarge the bar top.
The tray is providing a additional workshelf in good sight of the customer and in an
advantageous ergonomic position.

Item no. xx-zb26 EUR/unit **115,-**

The standard color for G-Flexx and G-Raxx base frames is white, similar to RAL 9016; custom RAL colors are available at extra charge
polyamide connectors are black RAL9005. Prices are ex works and VAT.

Extender tray

Made of powder coated aluminum, with 2 bar mats.

The tray is mounted to the G-Raxx base frame to create additional storage areas.

polyamide connectors are black RAL9005. Prices are ex works and VAT.

Cutting Board 1/2 GN

PE black, 1/2 Gastro norm size cutting board, with hole; 8 cm diameter.

The cutting board is inserted into the 1/2 GN openings in the work top or in the 1/2 GN container.

Item no. xx-zb11.1 EUR/unit 28.-

Insert Plate – 1/4 GN

2 mm stainless steel plate.

The plate is inserted into the 2/4 GN work top cut outs.

Item no. xx-zb12 EUR/unit 14.50

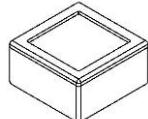

Insert Plate - 1/6 GN

2 mm stainless steel plate.

The plate is inserted into the 2/4 GN work top cut outs.

Item no. xx-zb13 EUR/unit 11.30

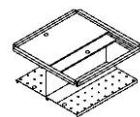

Ice Box

EPP made Box.

Approx. 480 x 480 x 280 mm outer dimensions.

Item no. xx-zb14 EUR/unit 60.-

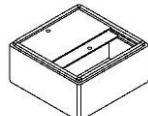

Ice Box Sliding Top Set

The Set consists of the following parts:

- divider sheet for Ice, stainless steel, 1 pcs.
- perforated dripping plate, stainless steel, 2 pcs.
- Stainless steel rails, 4 pcs.
- Sliding Plates, acrylic glass with finger hole, 2 pcs.

Item no. xx-zb14.1 EUR/set 145.-

Ice Box with Sliding Top Set

Consisting of Ice Box (xx-zb14) and Ice Box Sliding Top Set (xx-zb14.1).

Item no. xx-zb14.2 EUR/set 180.-

Gastro Norm Sink 1/2 GN

1/2 GN sink; for insertion into the work top inserts.

Stainless steel; W x D = 325 x 265 mm.

With drainage and pillar tube.

Item no. xx-zb16 EUR/unit 120.-

Blender Flusher 1/2 GN flat version

1/2 GN-Stainless Steel Spray Flusher with poly disk.

Set includes drain board and water connection fitting.

Flat version (housing) only 28 mm.

Stainless steel; W x D = 325 x 265 mm.

Item no. xx-zb16.1 EUR/unit 149.-

The standard color for G-Flexx and G-Raxx base frames is white, similar to RAL 9016; custom RAL colors are available at extra charge
polyamide connectors are black RAL9005. Prices are ex works and VAT.

Drip Pan 1/2 GN flat version

1/2 GN-Stainless Steel Drain board.
Set includes drain board rinse access.
Flat version (housing) only 28 mm.
Stainless steel; W x D = 325 x 265 mm.

Item no. xx-zb16.2 EUR/unit 109.-

Bar Counter Tab

Water tap single fed, for 1 basin including scouring pipe connection (can be used for blender rinser xx-zb18).

Item no. xx-zb17 EUR/unit 155.-

Blender and Shaker Rinser

Rinser made of stainless steel including **vacuum cup**, for stability.
The set is including flexible hose in stainless steel and can be connected to bar counter tab scouring pipe connection.

Item no. xx-zb18 EUR/unit 120.-

1/2 GN insert blender flusher

Item no. xx-zb18.1 EUR/unit 104.50

Water Station

Consisting of:

- Electronic water pump with base plate 2x1/6 GN and cold water tap, additional connections for blender and shaker rinser (xx-zb18) and blender flusher (xx-zb16.1)
- 2 pcs 25l water containers, 1x for fresh water and 1x for waste water
- hose set

When using the set in combination with the G-Flexx, we recommend the use of the roller platform base (xx-zb19).

When using the set in combination with the G-Raxx, we recommend the use of the dolly platform base (rx-wb).

Item no. xx-zb15 EUR/set 635.-

Water Station Full Set

Consisting of:

- Water pump, tap, water containers, hose set (xx-zb15)
- Gastro Norm Sink 1/2 GN (xx-zb16)

When using the set in combination with the G-Flexx, we recommend the use of the roller platform base (xx-zb19).

When using the set in combination with the G-Raxx, we recommend the use of the dolly platform base (rx-wb).

Item no. xx-zbws1-set EUR/set 725.-

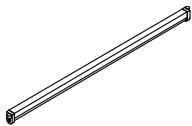

Water Set platform base

Platform base made of plywood with 4 casters, approx. 540 x 540 mm.

Item no. xx-zb19 EUR/unit 75.-

The standard color for G-Flexx and G-Raxx base frames is white, similar to RAL 9016; custom RAL colors are available at extra charge
