the Cambro® story

When William and Argyle Campbell first opened the doors at Cambro Manufacturing in 1951, their goal was to make the highest quality hospital meal tray possible. Named the Camtray, it demonstrated that they were as committed to excellence in the foodservice industry as they were with their own products. As 2021, marked the company's 70th year of leadership in quality, innovation and customer service, today Cambro serves the world with the industry's most complete selection of products for widely diverse segments of the foodservice business. The future is certain to bring great changes to our industry. Yet one thing that will remain a constant is Cambro's tradition of continually developing new products that help foodservice operators save time and money, increase sales, reduce labor and improve service. In the years ahead, guided by the commitment of its founders to innovation, quality, and value, Cambro Manufacturing will still be the leader in serving the foodservice industry and you, our valued customer.

HIGH DENSITY STORAGE FLOOR TRACK SYSTEM

Maximize storage capacity by creating storage aisles in all available space. This simple system is composed of stationary starter units anchored to a raised floor track system at both ends with high density mobile units installed in between. Easy to install track requires no drilling or gluing.

Increases Storage
Capacity Up To

50%

High Density Mobile Units are available with factory assembled post kits, vented or solid shelves and high density casters and bumpers. Full track and extension kits ship complete with required hardware. Stationary Starter Units are required to anchor the system at both ends. Choose from a wide selection of sizes with 4 or 5 shelves to maximize storage space. (see Premium Series spec pages).

Raised Floor Track provides a smooth and level surface to easily roll mobile units. Raised track ensures dirt will not get trapped and is easy to clean. Aluminum track and stainless steel hardware are rust resistant.

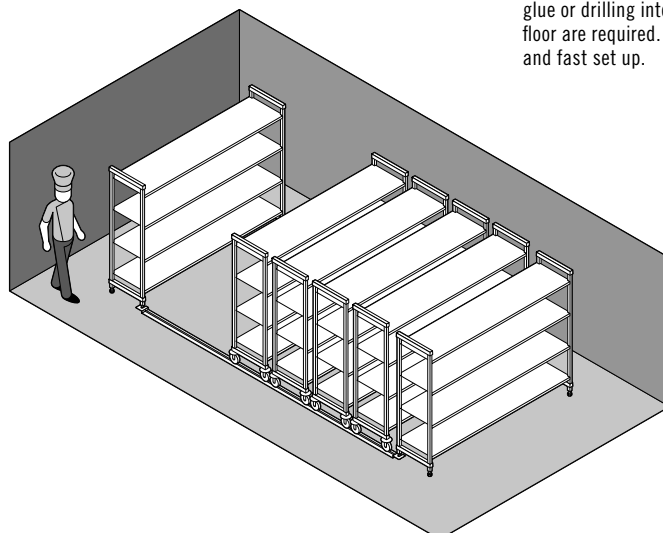

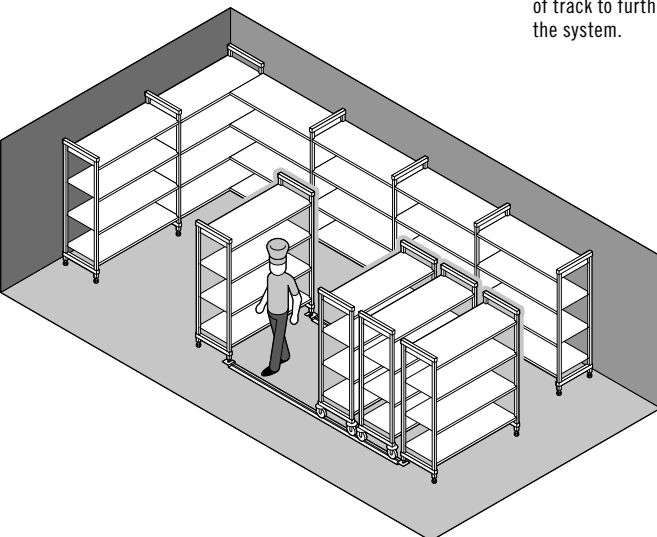

*It is recommended to use a stationary unit for every 15' of track to further stabilize the system.

Grooved casters roll easily and securely on raised track.

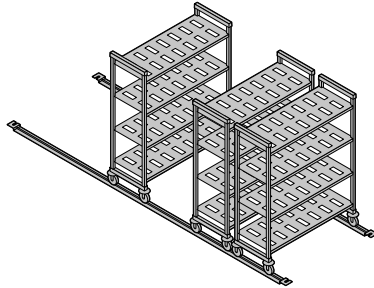

Raised track connects easily to the bottom of a stationary unit that works as a system anchor. No bolts, no glue or drilling into the floor are required. Easy and fast set up.

4-SHELF VENTED HIGH DENSITY MOBILE UNITS

Units include 2 factory assembled mobile post kits, 4 shelves, 4 high density casters and 4 high density bumpers. Units ship complete in 1 box.

WHY CHOOSE ELEMENTS?

Made from a revolutionary, extremely strong composite material with a smooth, easy to clean surface. Elements Series is stronger than common wire shelving. It's lighter in weight than Camshelving Premium Series and totally impervious to moisture, chemicals and liquids that can destroy shelving over time. Elements Series is designed for medium to heavy storage use in freezers, coolers, dry storage or warewashing areas. It easily supports the performance demands of a busy foodservice operation.

BASICS® PLUS

STATIONARY

WHY CHOOSE BASICS PLUS?

Just because the budget is tight and storage needs are less rigorous, it doesn't mean that shelving performance and storage efficiencies should be compromised. Basics Plus Series is made from the same high performing, strong composite material as Elements Series and has the same design features. It's lighter in weight and less in cost but still strong enough to handle light to medium storage demands.
